Survivor Series

For Year 3 and Year 4 pupils.

Level 2

Curriculum Level 2

Survivor Series.

A Mathematical Week in the Life of Bob.

Written by Tamara Jones, University of Auckland.

What to do.   **For pupils.**

1.   **You can work with a friend.**

2.   **Do the questions and enter your answers in your maths book.**

3.   **When you have done each question check with your teacher to see whether you are correct.**

4.   **If you are right, try the next question.**

5.   **If you are wrong, answer the question again.**

6.   **There are between 10 and 15 questions each day.**

7.   **When you have finished each day, you will get the magic word.**

8.   **At the end of the week put the 5 magic golden words together and find where the treasure is.**

Wednesday: World Maths

Bob's class begin a new study about countries.
Each child chooses a country to study.
As a class, they create a table to show the populations of their chosen countries.

Country	Population
China	1,388,232,693
South Korea	50,704,971
Australia	24,641,662
Fiji	902,547
America	326,474,013
India	1,342,512,796

1. Which country has the largest population?

2. Which country has the smallest population?

3. New Zealand has an approximate population of 4,600,000.
   Which country in the table is closest in population to New Zealand?

4. Hamish learns that the distance from New Zealand to China is 11160 kilometres (km). Natasha finds out that South Korea is 9794 km from New Zealand.
   Which country is closest to New Zealand?

Bob and his friends go to the tuck shop at lunch time to buy a treat.

5. Juicies in the tuck shop cost $1.
   If 47 children each buy a Juicie, how much money is paid to the tuck shop?

6. A pie costs $2.50. Bob pays $5. How much change will he get?

7. If Finn buys 2 pies, one for himself and one for his friend, Malachi, how much will it cost?

8. Finn pays for the two pies with a $10 note, how much change does he get from Mrs Snacksrus, the tuck shop lady?
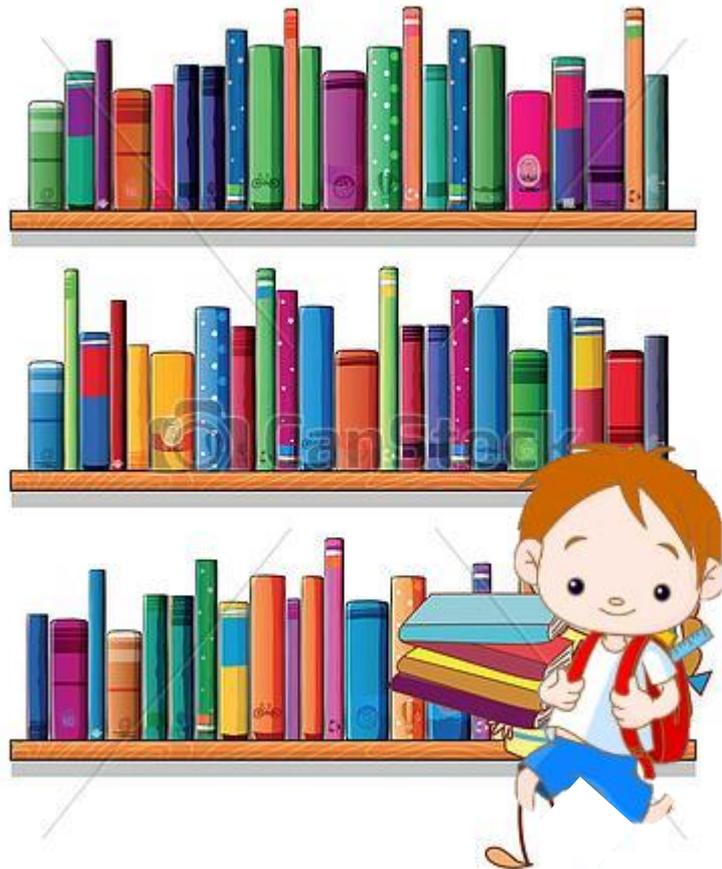

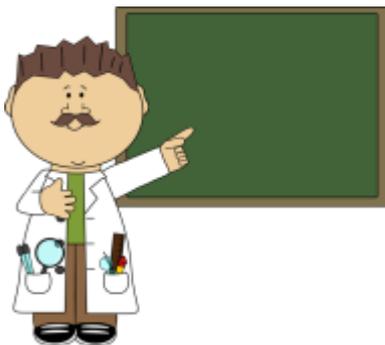

Library Hour!
Bob loves the library because it is a warm, snuggly place, and it has no maths...
at least that's what Bob thinks!
As he walks into the library he notices that the temperature is always set to 23 degrees Celsius.

9. If it is four degrees warmer than in his classroom. What is the classroom temperature?

10. Bob and his eight friends all borrow 2 books each. How many books are issued?

11. The children can borrow the books for a fortnight. How many days are in one fortnight?

12. The library closes ten minutes before the end of the school day. The school bell rings at 3pm. What time does the library close?

Extra for Experts:
Find out some mathematical facts about a country you are interested in.
