Survivor Series 2017

Level 4

For Year 7 and Year 8 students.
Curriculum level 4.

What to do.

For students.

1. You can work with a friend or two friends!
Teams can be different each day.
2. Do the tasks and enter your answers in your maths book and show your teacher.
3. If you are right you will get the next task.
4. If you are wrong, answer the task again.
5. When you have finished each day you will get a code word.
6. At the end of the week you will have 5 code words. Put them together and this will tell you where your school's Maths Week treasure is.
7. Good luck !

Friday: 2017 The Maths Chaser !
Survivor Series Level 4
For Year 7 and Year 8 students. Curriculum Level 4.

The Maths Chaser is modelled on the very popular television programme "The Chase". It involves a ladder of 7 rungs and maths questions for contestants.

The contestant chooses which rung on the ladder they wish to start at.

The chase begins with a maths question.

If the contestant gets the correct answer they progress down the ladder by one step.

If the contestant gets the wrong answer they stay where they are on the ladder.

The Chaser does not get questions wrong and progresses down the ladder one rung at a time.

If the Chaser reaches the same rung as the contestant the contestant is out.

For them "the chase is over"!

If the contestant reaches the ground they win the money!!

Contestants who finish will have different money depending on where they start.

The Contestant with the highest value won wins the contest!
